Index

Volume 6 (1989)

Articles

February (pp 1–96)

Hydrocarbon gas seeps of the convergent Hikurangi margin, North Island, New Zealand
K. A. Kvenvolden and J. R. Pettinga 2–8
Four-phase tectonostratigraphic development of the southern Caribbean
A. Eva, K. Burke, P. Mann and G. Wadge 9–21
Indication of transpressional tectonics in the Gullfaks oil-field, northern North Sea
H. Fossen 22–30
Geopressured Jurassic reservoirs in the Viking Graben: modelling and geological significance
C. Buhrig 31–48
Late Permian to early Mesozoic rifting and sedimentation offshore NW Ireland
M. P. Tate and M. R. Dobson 49–59
Subsurface temperatures and surface heat flow in the Michigan Basin and the relationship to regional subsurface fluid movement
R. Vugrinovich 60–70
Seismic stratigraphy of the central Tonga Ridge
J. A. Austin, Jr, F. W. Taylor and C. D. Cagle 71–92
Stylolites as open fluid conduits
C. J. R. Braithwaite 93–96

May (pp 97–192)

Timing diagenesis in the Tartan Reservoir (UK North Sea): constraints from combined cathodoluminescence microscopy and fluid inclusion studies
S. D. Burley, J. Mullis and A. Matter 98–120
Diagenesis in shales from a partly overpressured sequence in the Gulf Coast, Texas, USA
H. F. Shaw and T. J. Primmer 121–128
Correlation of carbon dioxide abundance with temperature in clastic hydrocarbon reservoirs: relationship to inorganic chemical equilibrium
J. T. Smith and S. N. Ehrenberg 129–135
Toarcian anoxic event in Europe: an organic geochemical study
P. Farrimond, G. Eglinton, S. C. Brassell and H. C. Jenkyns 136–147
Magnetic field over the Dead Sea and vicinity
U. Frieslander and Z. Ben-Avraham 148–160
Gas seepage and assumed mud diapirism in the Italian central Adriatic Sea
M. Hovland and P. V. Curzi 161–169
Upper Carboniferous source rocks north and south of the Variscan Front (NW and Central Europe)
D. Kettel 170–181
Sources and deposition of organic matter in Cretaceous passive margin deep-sea sediments: a synthesis of organic geochemical studies from Deep Sea Drilling Project Site 603, outer Hatteras Rise
P. A. Meyers 182–189

August (pp 193–288)

Palaeoceanography and tectonic setting of the Jurassic Coast Range ophiolite, central California: evidence from the extrusive rocks and the volcaniclastic sediment cover
A. H. F. Robertson 194–220
Crustal structure and formation of a magnetic quiet zone in the Australian southern margin
P. E. Williamson, C. D. N. Collins and D. A. Falvey 221–231
Morphology, sediments and structure of the Amirante Trench, Western Indian Ocean: implications for trench origin
J. E. Damuth and D. A. Johnson 232–242
Jurassic sequence stratigraphy in the Hebrides Basin, NW Scotland
N. Morton 243–260
Secondary porosity: creation of enhanced porosities in the subsurface from the dissolution of carbonate cements as a result of cooling formation waters
M. R. Giles and R. B. de Boer 261–269
Robustness of disaggregate oil and gas discovery forecasting models
E. D. Attanasi and J. H. Schuenemeyer 270–276
Prediction of ancient coastal upwelling and related source rocks from palaeo-atmospheric pressure maps
R. G. Miller 277–283

November (pp 289–388)

Regional maturity as determined by organic petrography and geochemistry of the Schei Point Group (Triassic) in the western Sverdrup Basin, Canadian Arctic Archipelago
F. Goodarzi, P. W. Brooks and A. F. Embry 290–302
Depositional system and reservoir potential of the Middle Cretaceous Wasia Formation in Central–Eastern Arabia
F. A. Sharief, K. Magara and H. M. Abdulla 303–315
Hydrocarbon compositions of bitumens from mineralized Devonian lavas and Carboniferous sedimentary rocks, central Scotland
N. Robinson, J. Parnell and S. C. Brassell 316–323
Pleistocene Suvero slide, Paola basin, southern Italy
F. Trincardi and W. R. Normark 324–335
Late Cenozoic sea-level changes and the onset of glaciation: impact on continental slope progradation off eastern Canada
D. J. W. Piper and W. R. Normark 336–347
Test of seismic sequence methodology on a Southern Hemisphere passive margin: the Canterbury Basin, New Zealand
C. S. Fulthorpe and R. M. Carter 348–359
Virgin rock temperatures from well logs – accuracy analysis for some advanced inversion models
C. Hermanrud and P. Y. Shen 360–363
Automatic bedding discriminator for use with digital wireline logs
I. Reid, T. Linsey and L. E. Frostick 364–369
Fluid flow equations governing primary oil migration as a separate phase
I. Ozkaya 370–375

Book reviews

Applied Seismic Wave Theory
Ginzburg, A. 284
Bibliography of the Geology of the Arabian Gulf and Adjacent Areas
Stonely, R. 384
Desert Sediments: Ancient and Modern
Glennie, K. W. 190
Gondwana and Tethys *Smith, D. G.* 384
Lecture Notes in Earth Sciences 10: The Zechstein Facies in Europe
Harwood, G. M. 284
Organic Metamorphism and Geothermal History
Chenet, P. Y. 190
Seabed Pockmarks and Seepages – Impact on Geology, Biology and the Marine Environment
Clarke, R. H. 285
The Atlantic Continental Margin, US
Roberts, D. G. 286
Tide-Influenced Sedimentary Environments and Facies
Sellwood, B. W. 191

Conference reports

Correlation in Hydrocarbon Exploration (3–5 October 1988, Bergen, Norway)
Parkinson, N. 384
Petroleum Geology and Geophysics Research in Academia (19 January 1989, London, UK)
James, K. H. 376

Author index

Abdulla, H. M. 303
Attanasi, E. D. 270
Austin, Jr., J. A. 71
